Chateau de Melusine

One mile above Schweitzer Mountain Resort, you will find Schweitzer Castle and its accompanying "Château de Melusine". The Castle itself is a private residence, but now you have the opportunity to book a stay in the "Chateau de Melusine" (Castle of Melusine).

The Chateau’s construction is of quarried Stone, 22” thick. The floors are Idaho Quartzite and hydronically heated for your comfort. The Great Hall has at one end, a modern fully equipped kitchen, while at the other end, a 50" wood fireplace. The dining table seats 8 in a royal atmosphere.
